

INTAKE EQUIPMENTS

- Travelling Band Screens
- Bar Screen / Coarse Screens
- Stop Log Gates

TECHNOLOGICAL STEEL STRUCTURES

- Station Building
- Coal Bunkers

TURNKEY PACKAGES

- Fuel Oil Handling System and Storage Tanks
- CW System and LP Piping
- Fire Detection and Protection
- Balance of Plant (BOP)

HYDRAULIC STEEL STRUCTURE

- Vertical / Radial Gates
- Trash Racks
- Gantry Cranes / Rope Drum Hoists / Hydraulic Hoists

TRASH RACK CLEANING MACHINE

- Rope Operated Mechanism
- Hydraulic Mechanism

INTAKE EQUIPMENTS

- Travelling Band Screens
- Bar Screen / Coarse Screens
- Stop Log Gates

TURNKEY PACKAGES

- Fire Detection and Protection
- Piping Package
- Fuel Oil Handling System and Storage Tanks

GENERAL MECHANICAL WORKS PVT. LTD.

An ISO 9001 : 2008 Certified Company

THE COMPANY

We started in 1978 with the aim of turning imaginative ideas into leading products and services that maximize value for the customer. Our production of new products and constantly improving in these products is one of the reasons of our overall achievement. The other is our ability to provide economical design for dependable solutions, with timely completion and well supported by after sales service.

SPECIALIZATION

We are specialized to give multi-facet solutions to our customers. We are specialized in Designing, Procurement, Fabrication, Erection, Testing & Commissioning of following on EPC basis:

- Technological Steel Structures
- C. W. System for Power Plants
- Low / High Pressure Piping
- Fuel Oil Handling
- Balance of Plant (BOP)
- Hydromechanical Equipment (Gates & Penstocks)
- Intake Equipment (Travelling Water Screens, Trash Racks, Trash Rack Cleaning Machines)
- Trash Rack Cleaning Machine

QUALITY MANAGEMENT

We at General Mechanical Works strive constantly to further demonstrate our dedication to quality and improvement of our services.

Our quality policy encompasses the following fundamental values:

- Quality is a critical attribute of each activity that we intend to take up.
- Quality is treating customer with honour.
- Quality is our commitment to complete customer satisfaction - we don't take shortcuts.

Each of the activity is documented, any non-conformity is studied and steps are taken to immediately rectify the same and also to see that these are not repeated. Each of the work domains is divided and nominated P.O.'s are monitoring activities in their domains. P.O.'s are responsible for maintaining the quality standards as well as for continuously improving the health, quality and safety in their respective domains. P.O.'s are also responsible for making necessary provisions for training and development of employees from time to time.

HEALTH, SAFETY & ENVIRONMENT POLICY

The principal objective of it is to reduce or eliminate risk, operate efficiently and cost effectively in such a way as to protect its own workforce, third party personnel, the environment in which it operates and the assets with which it works or has control over.
