### **NPCIL, KAKRAPAR**

The order of fabrication and erection of structural steel works of 2 x 700 mw units of Nuclear Power Corporation of India Limited (NPCIL), Kakrapar, Gujarat received in the month of December – 2012.

The total tonnage of fabrication and erection of structural steel is 12180 MT. The principle client is NPCIL and the main EPC contractor is Dodsai enterprises Pvt. Ltd. & contractor for civil and structure is M/S Bridge & Roof Co. (I) Ltd.

We got the letter of intent (LOI) from the Bridge & Roof Co. (I) Ltd. for the structural steel works.

**MEET OUR FAMILY MEMBER**

South Indian by birth and Gujarati by heart describes **Mr. Kishor Venkatesh Bhatt**, better known as Kishorbhai by GEM Family. Completed his ITI from Vadodara and since then from last 16 years is proudly associated with us.

He feels that the freedom which a person gets in their family same freedom a GEM member gets in our family.

He has a small and a loving family with two daughters, Dhruvita and Dishita and his wife Mrs. Krutika, who is a perfect homemaker.

He aspires to be an expert himself in his field by the guidance of the people who are already expertise in their fields.

He is also one of the ardent fans of cricket and football and likes listening to music in his free time.

Kishorbhai feels that GMW is a great company to be with.

**HAPPY BIRTHDAYS**

**MANY HAPPY RETURNS**

**WHOSE PROBLEM IS THIS...???**

A man feared his wife wasn't hearing as well as she used to and he thought she might need a hearing aid. Not quite sure how to approach her, He called the family Doctor to discuss the problem. The Doctor told him there is a simple informal test the husband could perform to give the Doctor a better idea about her hearing Loss. Doctor, "Stand about 30 feet away from her, and in a normal conversational speaking tone see if she hears you. If not, go to 20 feet, then 10 feet, and so on until you get a response."

That evening, the wife was in the kitchen cooking dinner, and he was in the den. He says to himself, "I'm about 30 feet away, let's see what happens." Then in a normal tone he asks ' Honey, what's for dinner?' No response. Next he moves into the dining room where he is about 20 feet from his wife and asks, Honey, what's for dinner?' Again he gets no response. So he walks up to the kitchen door, about 10 feet away. "Honey, what's for dinner?" Again there is no response. So he walks right up behind her. "Honey, what's for dinner?" "John, for the fourth time I've said, CHICKEN!"

**Moral of the story : The Problem may not be with the other person as we always think, Could be very much within us..!j**

**HEALTH IS WEALTH**

Eggplant commonly known as brinjal is an easily available vegetable in India. Different varieties of eggplants as per their size, shape and color are available in the market. In addition to the sizes eggplants are also available in different colors like lavender, jade green, orange and yellow white.

Eggplant contains lots of vitamins and minerals like Vitamin A, Vitamin B1, B2, B3, and minerals like potassium, calcium and iron. Brinjal is also rich in dietary fiber and low in carbohydrate. It also has phenols which control blood sugar levels in diabetes. Eggplant is a great food for preventing heart disease as it helps to maintain cholesterol level.

Eat a baked brinjal with honey at night and it can cure insomnia. Its high potassium level helps to lower the high blood pressure which is good for hypertensive persons. Roasted brinjal helps in digestion and increase appetite.

**LAUGH IT OFF!!!**

**Height of Confidence**

Once many professors were called and asked to sit in a plane. After they sat they were informed that the plane is made by their students.

All of them ran and got out of the plane except one.

People asked him the reason.

He said: If it is made by my students **it will not even start.**

\*\*\*\*\*

**Docotor to a Kid:** Have you ever trouble with "Appendicitis"?

**Kid** : Yes

**Doctor** : When?

**Kid** : When I tried to spell it"

Answer to last month's puzzle is person needs to carry Rs.11.25 so when he comes out he is left with Rs.0.

**The correct answer was given by Mr. Sanjay Pargi, Vadodara (H.O) .**

**SMART GOALS**

When we ask anyone what is your goal, they say "I want to be successful, want to be happy and have a good living" and that is it. These all are wishes and not goals.

Goals must be:

**S : must be Specific.**

For Example : I want to learn playing guitar in 3 weeks. It becomes a goal when we pin it down.

**M : must be Measurable.**

If we cannot measure we cannot accomplish it. Measurement is a way of monitoring ourselves.

**A : must be Achievable.**

It should be challenging enough but should not be impossible to achieve or else it is disheartening.

**R : Should be Realistic.**

A person wanting to learn guitar in just 2 days is unrealistic.

**T : Should be Time Bound.**

Your goal should have a start date and an end date.
